HUNGARY HELPS

1. Read the article for information:

10 FACTS ABOUT BUSHMEAT IN AFRICA

1. Bushmeat comes from wild animals, including **bats, snakes, monkeys, rats, and antelope**. Bushmeat is often smoked, **dried**, cooked or salted.
2. These animals are hunted and killed in forests and savannas and then sold.
3. It is an important **income** of a family.
4. Bushmeat is about 75% of the protein **intake** for a person in Congo.
5. Farming **domesticated** animals is too expensive and impractical.
6. Up to six million tons of bushmeat are taken from the Amazon and the Congo Basin each year.
7. Hunting for bushmeat is one of the biggest **threats** of wildlife in Congo.
8. Researchers believe that bushmeat is responsible for the **spread** of AIDS, Ebola and other infectious diseases that have killed millions of people in this region.
9. There are laws and education campaigns to stop **trade**.
10. Educators and volunteers have been trying to develop **alternative sources** of protein and income, such as farming rats and beekeeping.
