

„Mindannyian testvérek” Program – Afrika

Az óravázlatot készítő pedagógus:	Mészáros-Ónodi Krisztina
Az óra címe:	Health
Az óra összefoglalója (2-5 mondat):	The lesson is designed to make our students more sensitive to the health issues that people in the underdeveloped world have.
Ajánlott korosztály:	13-14 years of age, A2-B1
Időigény:	one, 45-minute lesson

Az óra címe: Health

Activity	Time	Method	Attachment, tools
I.			
<i>warmer</i>			
1. Brainstorm the idea of „health”. Ask your Ss what can contribute to one’s health. (sport, sleep, food, doctor, lifestyle, ...)	5 minutes	whole class	<i>board</i>
2. Show them one letter at a time – the one who can give a word starting with the particular letter, belonging to one of the topics (mentioned above) can get the card. The student collecting the most cards wins.	10 minutes	whole class	<i>cards – letters of the alphabet</i>
II.			
<i>health</i>			
1. Match the illnesses to the pictures.	5 minutes	pair work	worksheet 1
2. check	2 minutes	whole class	
3. Play the boardgame. Two turns.	10 minutes	pair work	worksheet 1 one dice to a pair of Ss
4. What are the most common illnesses in Congo? Look for the causes on the Internet.	10 minutes	teamwork	worksheet 1, mobile phones
5. check	3 minutes		
III.			

„Mindannyian testvérek” Program – Afrika
